**Job Brief**

We are looking for a skilled welder to cut and join metals and other materials at our facilities or construction sites. You will operate appropriate equipment to put together mechanical structures or parts with a great deal of precision. Your job is important as it provides the foundation for strong infrastructure. A welder must be competent in using potentially dangerous equipment following all safety precautions. The ideal candidate will also have a steady hand and great attention to detail. Knowledge of different kinds of metals and their properties is essential.

**Responsibilities**

- Read blueprints and drawings and take or read measurements to plan layout and procedures
- Determine the appropriate welding equipment or method based on requirements
- Set up components for welding according to specifications
- Operator angle grinders to prepare the parts that must be welded
- Align components using calipers, rulers, clamp pieces, etc.
- Weld components using manual or semi-automatic welding equipment in various positions
- Repair machinery and other components by welding pieces and filling gaps
- Test and inspect welded surfaces and structure to discover flaws
- Maintain equipment in a condition that does not compromise safety

**Requirements**

- Proven working experience as welder
- Experience using a variety of welding equipment and procedures (TIG, MMA, etc.)
- Experience in using electrical or manual tools (saws, squares, calipers, etc.)
- Ability to read and interpret technical documents and drawings
- Knowledge of relative safety standards and willingness to use protective clothing
- Deftness and attention to detail
- Successful completion of a relevant apprenticeship program is required
- Professional certification will be a plus
